SKILLS THAT MAKE GREAT BOARD MEMBERS

This course examines some of the necessary skills needed for new members and should serve as a refresher for more seasoned members alike. Topics include board procedures and applicable laws to more practical matters, including conducting site visits, working with consultants, avoiding ex parte communications, and working with the public. How to build your technical knowledge and find assistance when needed, as well as utilizing the comprehensive plan for your decisions, will also be discussed.

Presenters: Paula Gilbert and Ebony Mapp, NYS Department of State

FEBRUARY 17, 2021

PLANNING BOARD TRAINING: GET WHAT YOUR COMMUNITY DESERVES

What is your motivation for serving on your local planning board? Has your individual and/or the board's collective impact on your community matched your expectations? As citizen planners, most of us volunteer with the goal of helping improve our communities and quality of life. However, this aim often gets sidetracked through the demands of navigating state law, SEQR requirements, local regulations, and political or applicant pressure. How can we balance the legal and political demands put on us with our desire to enhance the places we care about? This will be an interactive session using real world case studies to answer these questions and provide you with a better understanding of how to get results.

Presenter: John Steinmetz, Barton & Loguidice

FEBRUARY 24, 2021

PLANNING FOR A COMMUNITY FOOD SYSTEM

When local officials plan for a community's economic well-being, the food system is often overlooked as a vital asset. Learn the functions that define a food system; how those elements relate to the economic, social, and environmental well-being of a community, and strategies that officials and planners can consider when developing comprehensive plans and other priorities for community and economic development.

Presenter: Kimberly LaMendola, Southern Tier West

MARCH 10, 2021

ADMINISTRATION & ENFORCEMENT OF YOUR ZONING TO PROTECT COMMUNITY CHARACTER

This webinar will cover updating codes, relating codes to the comprehensive plan, role of the Town and Village Boards in establishing policy, implementing the code through Site Plan Review, Special Use Permit and ZBA, and enforcement of conditions and violations.

Presenter: Gary Palumbo, AICP and Richard Stanton, Attorney, Ellicottville, NY

MARCH 17, 2021

EXPERIENCES WITH BATTERY STORAGE WITH SOLAR & STAND-ALONE

Discussion on: 1) the different types of proposed projects and local laws that can be created to regulate battery energy storage; 2) the NYS Model Battery Storage law and how other municipalities have utilized this Model law to create their own battery storage law within their Zoning Code; and 3) the inclusion of battery storage requirements under existing solar energy laws.

Presenter: Drew Reilly, Wendel Companies

MARCH 24, 2021

TIPS FOR REGULATING TELECOMMUNICATIONS FACILITIES

Changes to federal law have placed restrictions on the extent to which local governments can regulate both large telecommunications facilities and the small cell components of a growing 5G network. But that doesn't mean the abilities of local officials to influence telecommunications towers and small cell systems are entirely pre-empted. This course aims to dispel misperceptions and answer questions about the application process for structures that nearly all of us utilize but few of us wish to have right outside our windows.

Presenter: Chris Eastman, NYS Department of State

MARCH 31, 2021

INNOVATIONS & BEST PRACTICES FOR PLANNING/ZONING BOARDS

At times, Planning and Zoning Board members can have the toughest jobs in the community! In addition to the challenges of adhering to state guidelines, the "new normal" has complicated proceedings further. This session will explore new ways to meet old requirements, demonstrate process tracking and organizational tools, and discuss promoting public participation to foster a renewed confidence in community planning.

Presenter: Lance Brabant, SPESC, MRB Group
