This practice will require you to perform periodic operation and maintenance to maintain satisfactory performance. The following recommendations will help you in performing adequate operation and maintenance.

GENERAL RECOMMENDATIONS

- Check all rock riprap sections for accelerated weathering and displacement. Replace to original grades if necessary.
- Maintain vigorous growth of desirable vegetative coverings. This includes reseeding, fertilization, and controlled application of herbicides when necessary. Periodic mowing may also be needed to control height.
- All settlement or cracks in the soil should be investigated to determine the cause and immediately repaired.
- Remove debris that may accumulate at this section, and immediately upstream or downstream from this installation.
- Remove burrowing animals that pose a threat to the project. Immediately repair any damage caused by their activity.
- Immediately repair any vandalism, vehicular, or wildlife damage.
- Attach any additional information on operation and maintenance for specific practices that are installed.

Landowner's Concurrence: I agree to operate and maintain the completed project as outlined in this document for 10 years following award of the Chautauqua County 2% Bed Tax Grant Program funding.
